# COMPANY OVERVIEW

Established in 2008 with well-organized and highly professional leaders with 30 years of experience in the construction field. Derwind Trading & Contracting is an ISO Certified contractor and is recognized as a Grade "A" contractor in the State of Qatar for construction and maintenance of buildings.

We aim to build a unique business relation with the clients in terms of execution of projects within specified timeframe, high quality of works that is according to the client's budget. Derwind has executed many projects that varies from luxury villas, private palaces, commercial buildings, industrial factories, sport facilities, heritage buildings, mosques, towers that suits branded hotel and shopping malls.

We are dedicated and committed to the provisioning quality of construction and efficient management of resources; our proven track record of major projects including new construction, renovation and restoration has earned us a reputation for being creative, technologically advanced and extremely responsive to our customers' needs.

Our competitive advantage stems from the atmosphere of mutual trust and respect that permeates through the company; the care and concern that we have for our employees and subcontractors greatly enhance our ability to deliver quality projects on time and within budget and at all times we are dedicated to our customers and their projects.

We appreciate the many benefits that a true partnering approach can bring for all parties involved and have developed a number of strategic relationships with key suppliers, installers and contractors as well as clients. Adopting this approach ensures time, money and resources are used most effectively and that client satisfaction is achieved through team work, cooperation and mutually agreed objectives.

In the coming years, we plan to explore and expand our potential, by contributing to the glorious all around development of the nation. We stand for unprecedented growth and extraordinary commitment to making a better tomorrow.

***We stand for unprecedented growth and extraordinary  
commitment to making a better tomorrow.***

# CHAIRMAN'S MESSAGE

**H.E. Sheikh Faisal  
Bin Qassim Al Thani**

DERWIND is an emerging leader in the construction industry with a track record spanning more a decade. We started in 2008 as a construction company with a team of dedicated, hardworking and talented engineers. Years of innovative and hard work helped establish DERWIND emerge as a leader in the construction industry with a diverse portfolio of complex and prestigious projects.

The secret for our success has been our commitment to quality, value, and superior customer service. We gained the trust of our clients through our long track record in the market and our know-how of the most innovative building solutions.

DERWIND, one of the most competitive construction companies in Qatar, has solidified its prominent position in the construction industry with its comprehensive advantages in state-of-the-art process technologies and facilities, outstanding cash profitability, sustained cost competitiveness and highly competent staff.

DERWIND's strategy is focused on two basic goals: to actively participate in advancing national development, and to establish a strong private sector that could promote the construction industry in Qatar in accordance with the strategies and policies of the state - where we are an important service provider to the government and to the people of Qatar.

We are confident that the experience we have garnered from our numerous projects in Qatar makes us a strong development partner to the communities we serve. We have learned that in order to succeed as a long-term player, we cannot just build for today, but have to build sustainable structures that can stand the test of time. Sustainability which takes into account ecological and social externalities as well as financial performance is another core value of DERWIND. It is also a pillar of our corporate strategy and our commitment to economic growth, social progress and environmental stewardship.

We are committed to maintain the highest levels of professionalism, integrity, honesty and fairness in our relationships with our suppliers, subcontractors, professional associates and customers. We strive to contribute to the sustainability of our global environment through an emphasis on sound profitability and corporate social responsibility in delivering high quality products and services.

Our achievements are made possible through our many partners in success - DERWIND employees, shareholders, customers, communities, affiliated partners and sister companies.

The key to our business success and the enduring client relationships that we enjoy is all about caring for our employees and putting them first. We train our employees, and we develop them through a continuous learning process — all with the ultimate goal of doing a better job for our customers.

This is a sign of our confidence, leaving aside uncertainty; our conviction that construction is our profession and our passion will drive growth — remains resolute.

# MANAGING PARTNER'S MESSAGE

**Kamel Mohamed El Agla**

***“Anyone can build it,  
but we believe  
we build it better.”***

We have adopted and maintained a professional style in running our company which proved successful since its inception in 2008. Our main objective was to make our presence felt in the developing process of the country and to deliver quality and specialized civil engineering services to our customers.

*Construction is a business where success is measured by the ability to complete projects on time and within budget.*

We, at DERWIND endeavor continuously, to improve designs, technology and services to allow our clients to achieve the most cost effective solutions for engineering construction systems. We look forward to further, closer partnering with the construction industry, to meet the challenges of the future.

Today, we have come a long way in making numerous remarkable contributions to the construction industry in Qatar. We set ourselves apart from every other construction company simply by our strong philosophy and our work culture.

*I'm confident that with our versatile, adaptable and technology led efforts, we will always meet the demands of our clients.*

The greatest strength of DERWIND is its highly skilled and committed employees. Every employee is given an equal opportunity to develop himself and grow in his career; continuous training, career planning, a positive work culture and participative style of management have engendered development of a committed and motivated workforce setting new benchmarks in terms of productivity, quality and responsiveness. We have some of the best and brightest in their field working for us. It's something we're proud of, we strive to be the industry leaders, and it shows in our work.

We have a strong belief in our people and the passion they generate to deliver on our clients' infrastructure challenges.

We're looking forward to working with you to develop, design and build a world-class relationship and facility. Whatever be our clients' project challenge, we offer the brilliance, the desire and dedication to get the job done right.

We are sure that with continued support from our employees, customers and all stakeholders, we shall take our Organization to new heights in the years to come, realizing our vision of becoming one of the best construction companies in the Middle East.

*I take this opportunity to pay my earnest gratitude to all who directly and indirectly contributed to this success and are still deeply committed to take this dream to new heights. But most of all, I give my gratitude in total humbleness, to the highest of all – the Almighty God.*

# MISSION

Our mission is to perform at the highest level of quality construction giving our customers fair and market competitive prices. To ensure the longevity of the company through repeat and referral business achieved by customer satisfaction in all areas including timeliness, attention to detail and service-minded attitudes. To maintain the highest levels of professionalism, integrity, honesty and fairness in our relationships with our clients, suppliers and subcontractors.

# VISION

To further strengthen and expand our established position and continue being the first choice of our clients. To explore and expand our potential by contributing to the glorious all-around development of the nation.

# VALUES

We overcome challenges and find sustainable solutions through **PROACTIVE** solutions.

We deliver **PROFITABLE** results for all.

We achieve success through **PARTNERING** and collaborative approach.

We behave in a **PROFESSIONAL** manner at all times.

We take **PRIDE** in all we do and who we are.

We have a **PASSION** for safely delivering quality buildings.

# CORPORATE RESPONSIBILITY

We approach our business aims with an awareness of the associated social and environmental implications and taking measures to address these in a proper manner. We recognize that we do not operate in isolation of the society of which we are part and have made Corporate Responsibility an integral part of our operations and strategy. This approach shapes everything we do so that all our activities contribute to our success.

## **OUR PEOPLE:**

We expect our employees to achieve the highest standards of professionalism in all they do and we undertake to treat them fairly with the courtesy and respect they deserve. We offer substantial scope for personal development in support of both the goals of the business and individual career aspirations.

## **HEALTH AND SAFETY:**

We are fully committed to a process of demonstrable, continuous improvement in the pursuit of health and safety excellence. Robust systems and controls enable us to proactively manage our health and safety activities to achieve zero accidents.

## **THE ENVIRONMENT:**

We achieve and demonstrate our environmental performance by minimizing the negative impact of our operations, whilst maximizing the potential for environmental improvement. Our aim is to be at the forefront of the industry in reducing the impact of all our activities in the environment.

## **COMMUNITY INVOLVEMENT:**

Construction organizations play a vital role in the development of local communities through sustained investment and development. It is important that we recognize our responsibilities in carrying out this role and continuously contribute an impact to the community. We seek to contribute to the economic well-being of the communities where we work through the employment of local people and suppliers wherever appropriate. We actively encourage our people to involve themselves in the local communities, either through volunteering activities in local organizations and charities or by participating in local business groups and educational establishments in sharing knowledge and experience.

## **CLIENTS, SUBCONTRACTORS AND SUPPLIERS:**

We continue to actively develop mutually beneficial relationships with all those with whom we do business. We regularly review our business processes with a vision to improving quality and productivity, thereby enhancing our ability to create value, while working to achieve the aspirations of sustainable development. In support of this, all areas of the business are encouraged to innovate and share knowledge in the pursuit of a continual drive for excellence.

## **CORPORATE GOVERNANCE:**

We have a responsibility to manage our assets effectively in order to provide our business partners with a fair and competitive return. We insist that the laws and regulations governing our business activities and relationships be meticulously observed.

The organizational chart is structured as follows:

# INTEGRATED MANAGEMENT SYSTEM

*DTC continues to be  
one of the leading  
QHSE (Quality, health,  
Safety and Environment)  
management performers  
in construction industry.*

DTC underlines the importance of improving the physical and social environments in which employees operate in and constantly perform risk management techniques to identify the dangers employees can encounter in the workplace.

Preventing these problems are highly beneficial and studies obviously prove that safe and hygienic environment improves productivity. Our standards of procedure and policies are so implemented to ensure employee safety and health - an action taken proactively and controlled by the top management.

We are striving to continually improve the performance of QHSE management system - quality, health, safety and environment performance being one of our key strategic objectives. The protection of human health, personal safety and environment is of greatest importance to DTC. We operate in a diligent and responsible manner consistent with other world class corporations and in line with our QHSE business goals and policy.

We empower and support our associates in their ongoing efforts to prevent accidents of all kinds and to promote a safe working environment. We pursue comprehensive management systems to demonstrate our community to Quality, Health, Safety and the protection of our Environment and to the principles of our QHSE Policy, bringing value to our associates, customers and the community.

Responsibility for Quality, Health, Safety and Environment rests at the top management level of Derwind Trading & Contracting Co. W.L.L. and is transferred down the line for implementation. Everyone in our organization is accountable for QHSE performance in their respective area. DTC embarked upon a number of behavioral safety initiatives to complement our procedures and to seek that everyone engages fully in these matters.

# QUALITY & HSE POLICIES

DERWIND is committed to providing the highest quality service possible. This will be achieved by understanding our customers' needs. We endeavor to improve our systems of work and service delivery to achieve customer satisfaction. The principle operational responsibility for ensuring customer satisfaction and for complying with the company's policies and procedures lies with line management, however, all employees are responsible for compliance with the procedures. DERWIND shall appoint competent personnel to provide support, guidance and monitoring to ensure that the business complies with this policy. We will also provide necessary information, instruction, training and supervision to ensure that employees are able to discharge their duties effectively.

## ***To meet our commitments, we will:***

- Ensure compliance with legal, statutory and regulatory requirements.
- Know our customers and have a complete understanding of their needs. Through performance measurement and effective communication, ensure customer requirements are met, exceeded or enhanced. Seek opportunities to provide our customers with innovative business solutions.
- Recognize each employee's responsibility for quality. Use only Selected, Approved, Preferred or Certified suppliers and accept only conforming products and services from suppliers.
- Through regular review, ensure that the Quality Policies and Procedure Manuals remain relevant to the Company and comply with requirements.
- This policy shall be made available to all employees through and displayed as is appropriate to each site on notice boards. It is available to the General Public and other interested parties on request.
- The Quality Assurance Policy shall be reviewed annually by DERWIND.
- It is the policy of Derwind Trading & Contracting Co. W.L.L to provide quality economical, engineering and construction services to the customer's satisfaction. In order to achieve this policy, the following aspects shall be established and complied with.
- Identify customer requirements and needs in order to carry out the services with team spirit.
- Ensure compliance with all applicable regulations and requirements regarding the services provided to be provided.
- Provide efficient services to meet customer specifications and needs by procuring the proper materials and maintaining equipment and necessary infrastructure in a high state of repair.
- Recruit highly qualified staff and improve the skills of employees in order to maintain the quality of products and services that meet, or exceed, the customer expectations.
- Optimize the performance and maintain strict monitoring of the project throughout its duration in order to meet the client requirements.
- Continually identify, assess and implement the measures and steps that improve the company's Quality Management System.

***Derwind Trading & Contracting Co. W.L.L is dedicated to the concept that all accidents are preventable. To achieve and enhance our commitment to a zero accident policy and foster culture of continuous improvement of our safety health and environment duties, the following shall be followed:***

- Comply with applicable legal and other business requirements. In those areas specific to the civil engineering construction industry, seek to apply more stringent standards and procedures wherever appropriate.
- Emphasize the awareness and training of all persons working for, or on behalf of Derwind.
- The health and safety of its employees, sub-contractors and other persons, who may be affected by the company's activities, are of foremost consideration.
- Take appropriate precautions to prevent all incidents, which may harm people, damage property and pollute the environment.
- Taking care of employees' health, ensuring safety at work places and protecting the environment is everyone's responsibility. The HSE personnel will work as catalysts to ensure that all sites personnel fulfill their respective responsibilities.
- Protect the Environment by maintaining low levels of generated waste through various activities and minimize the consumption of resources.
- Ensure the safe operation of all industrial equipment machinery and plant. Continually identify the potential areas of HSE Management System improvement and establish the necessary measures to implement such improvements.
- Ensure that any party performing business with Derwind Trading & Contracting Co. W.L.L is complying with all of the above.
